

We start distribution of train operation information via Twitter account in English

- JR East provides train operation information via website, JR East app, Twitter, etc., when train delays occur or are expected.
- Up to now, Twitter train operation information has been distributed only in Japanese. In addition to this, we will start distributing information in English via Twitter account.

1. Scheduled service starting date

From around 10:00 on December 24th (Tue), 2019

2. Distribution information

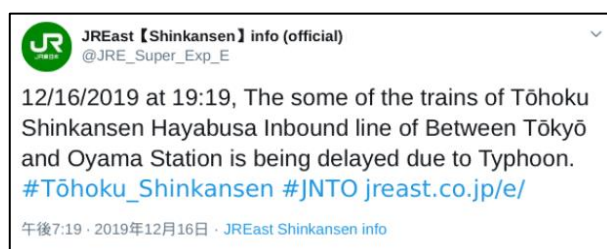

If a delay of more than 30 minutes occurs or is expected in the JR East area between 4 o'clock and 2 o'clock on the next day, we will inform the train operation status. In the case of normal train operation, the operation status will be distributed every day at 7am and 5pm. In addition, we will inform BRT service information only when the operation will be suspended for a long time.
