I Speed up "Move up" 2027

 \sim To realize sustainable JR EAST GROUP \sim

Trends Envisioned in Society during and after the COVID-19 Pandemic

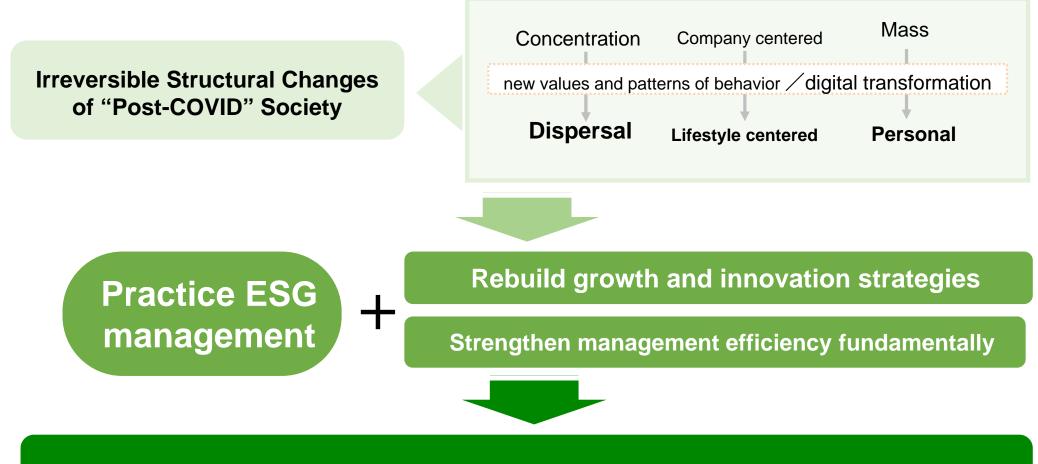

Structural change

Current Crisis—Policy on Measures during the COVID-19 Pandemic

Accomplishment of social mission	The Group will accomplish its social mission by contributing to economic recovery through optimal transportation and service provision while implementing such countermeasures as the disinfection and ventilation of railway stations and railcars rigorously so that customers can use them in reassuring, clean environments.
Speed up "Move Up" 2027	The Group will revise investment required for the continuous operation of business, with ensuring safety as a premise, while investing in growth and innovation steadily to realize the JR East Group Management Vision "Move Up" 2027.
Create transportation demand	The Group will make a concerted effort to create transportation demand by leveraging <i>JRE POINT</i> to laterally link railway, life-style services, and IT & Suica businesses, by partnering with national and regional governments and local communities to offer products with highly attractive value, and by actively proposing new ways to travel and new lifestyles.

Trends Envisioned in Society during and after the COVID-19 Pandemic

Realize the JR East Group Management Vision "Move Up" 2027 by raising the speed and level of forward-looking initiatives

- We will combine our strength in real-world networks with digital technologies to offer ideas for new lifestyles and take on challenges in new fields.
- We aim to adopt a people-focused approach in evolving our railway-centered business model, reform cost structures, and make the JR East Group a sustainable corporate group that coexists with local communities.

Rebuild growth and innovation strategies

	Short term (2020 • 2021)	Middle term (2022 \sim 2024)	Long term (2025~)				
	Support work-style reform						
	Create real $ imes$ digital lifestyles (strengthen e-	commerce)					
	Attractive to	wn development					
Propose new lifestyle ideas	Provide reassurance and cleanliness as well a	as transportation and trips a	voiding "Cs"				
inestyle lacas	New transportation and trips enabled by MaaS	and digital technologies					
	Expand Suica businesses	catering to contactless	needs				
	Integrate Group s	trategies for customers					
	Logistics servio	es that utilize trains					
Take on	Business alliances with start-up companies, etc. (regional agriculture, utilization of unmanned railway stations,						
challenges in	Share 5G ant	enna infrastructure					
new fields	Utiliz	ze robots					
	Development o	verseas businesses					
Practice ESG	management						
-	Long term (2025~)						
	Zero-Carbon Challenge 2050						
	Contribute to regional revitalization						

Propose new lifestyle ideas [Support work-style reform]

We will support customers' diverse work styles, such as telecommuting and workcations. We will ease congestion during commuting hours and realize environments that customers can use comfortably.

Workcations, Multiple-Residence Lifestyles

 Promote workcations that combine GALA Yuzawa, the JR East Group's hotels, local facilities, and events, etc.

Combine usage of Suica for railways, Group hotels, *STATION WORK*, etc., and provide preferential services to repeat customers

Expand STATION WORK

• Aim for 100 locations within one year to promote telecommuting and 1,000 locations nationwide by fiscal 2026

Rebuild Growth and

Innovation Strategies

Support Diverse Commuting Such as Off-Peak

 Promote off-peak commuting by awarding JRE POINT

Award *JRE POINT* to customers using Suica commuter passes during off-peak periods (from spring 2021)

• Benefits for Repeat-Customers

Award passengers who use train services repeatedly *JRE POINT* that is equivalent to points awarded for using *Suica* charging to purchase multiple-ride tickets (from spring 2021)

Propose new lifestyle ideas (Create real \times digital lifestyles

We will incorporate the latest technologies to create railway station spaces that customers find convenient and attractive. JR East Group will expand and enhance its differentiated lineup and strengthen e-commerce centered on JRE MALL.

Create New Railway Station Spaces

Taking into consideration changes in lifestyles, create railway station spaces that customers find more convenient and attractive

Launch new businesses and through them create new value and lifestyles

Strengthen JRE MALL

Roll out differentiated, appealing JR East Group products

Rebuild Growth and

Innovation Strategies

- Proactively sell agricultural products and online tours with a focus on regional revitalization
- We will enhance the appeal of the products of JRE MALL through external alliances with SENSHUKAI, with BELLE MAISON, among others. Further, through reciprocal customer referral with BELLE MAISON members, we will strengthen the membership base of JRE POINT.

Sake Brewery Online Tour @Niigata

Sale of agricultural products in collaboration with regions (rendering)

Propose new lifestyle ideas [Attractive town development]

We will accelerate diverse, attractive town development through initiatives to heighten the area value of the Tokyo metropolitan area, such as the promotion of proposal-type rental apartments and the utilization of JR East's funds for the acquisition of external properties, etc.

Real Estate Business

- Aim to reconcentrate and remobilize the potential of the Group's real estate and maximize the Group's asset value
- Advance proposal-type rental apartments based on various concepts to promote the development of line-side areas that people are glad they live in

Nagamachi Station East Exit Development

View Lieto Gran Shinjuku Toyama

- Participate in real estate funds
- Accelerate town development by utilizing funds to incorporate the Company's own properties and acquire external properties mainly in areas surrounding railway stations

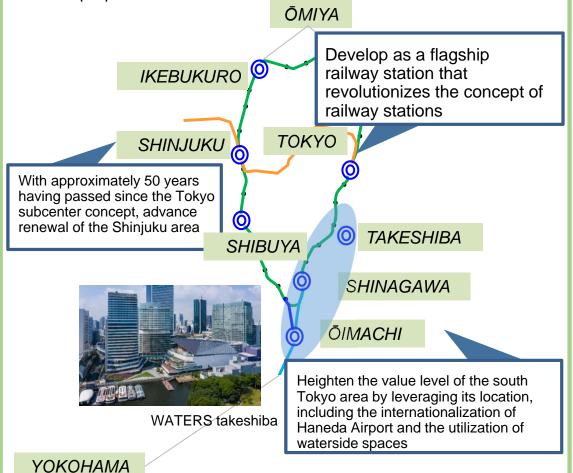

Tokyo Metropolis Project

In an era of global competition among cities, advance town development that enhances and heightens the profile of the appeal and value of the Tokyo metropolitan area as a multilayered, multipurpose area

Rebuild Growth and

Innovation Strategies

(Provide reassurance and cleanliness as well as Propose new lifestyle ideas transportation and trips avoiding closed spaces, crowded places and close-contact settings

Rebuild Growth and nnovation Strategies

With safety as a base, we will offer ideas for reassuring, comfortable transportation and trips through such measures as the provision of clean environments, the provision of congestion information, and the establishment of products that avoid closed spaces, crowded places and close-contact settings.

Provide clean environments

Disinfect railway stations, railcars, stores, etc.

Comfortable Transportation and

Roll out cleaning business that leverages technological capabilities and know-how

Provide Information on the congestion of Railway Stations and Railcars

> Provide congestion information via the JR EAST APP and JR East's official website

Discounted Use of Quiet Trains and Periods

 Increase and improve dynamic pricing and limited-time offers

Accommodation

 Pricing by season Flatten usage through such measures as increasing the difference in fares for guiet periods and crowded periods

Staycations at Nearby Hotels

Discounted use of the JR East Group hotels in the Tokyo metropolitan area and major cities

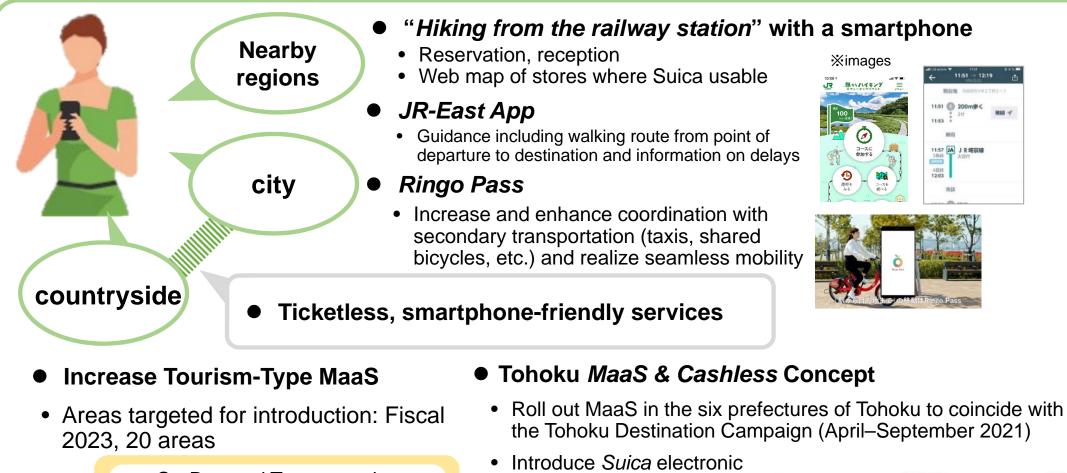

Offer products combining Gran Class / Green Car and

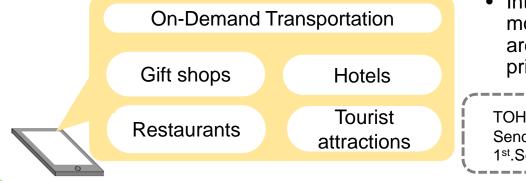

Propose new lifestyle ideas

New transportation and trips enabled by MaaS and digital technologies

We will offer customers comfortable ways of using transportation and taking trips that utilize digital technologies.

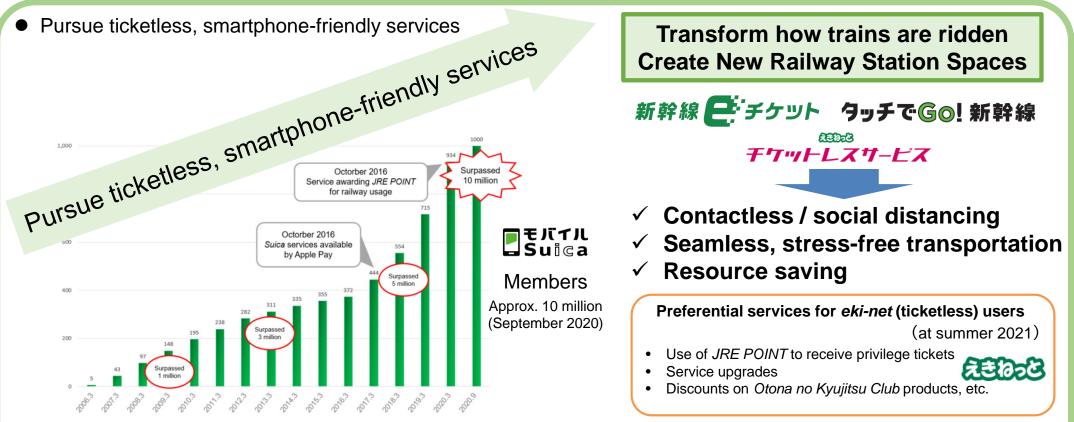

- money to the main tourism areas and areas nearby the principal railway stations
- **TOHOKU MaaS** Sendai · Miyagi trial 1st.Sep.2020~30th.Nov.2020

Propose new lifestyle ideas [Expand Suica businesses catering to contactless needs]

We will accelerate the introduction of ticketless, smartphone-friendly services and realize seamless, stress-free transportation for customers while increasing various services and businesses that cater to contactless needs.

- Expand electronic money business (affiliated stores) through coordination with mobile ordering, etc.
- Promote the Introduction of *Suica Authentication Information Provision Service* (digital tickets, digital keys, etc.)
- Consider utilization of NFC Tags in the transportation and payment fields
- Promote a shift to smartphone usage by diversifying methods of charging *Mobile Suica* through fintech collaborations, etc

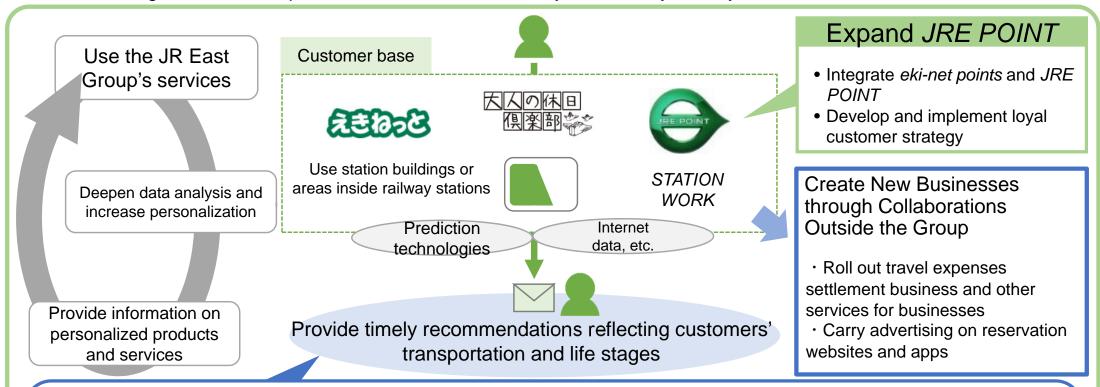

Rebuild Growth and

Innovation Strategies

Proving trial of *NFC Tag* utilization on buses (out of business hours)

Propose new lifestyle ideas [Integrate Group strategies for customers]

We will achieve unified understanding and analysis of data possessed by the Group and advance comprehensive customer strategies that encompass three businesses, namely, the railway, life-style service, and IT & Suica businesses.

 Increase average sale per customer and customers' usage frequency through cross data marketing that laterally spans various locations, times, and services

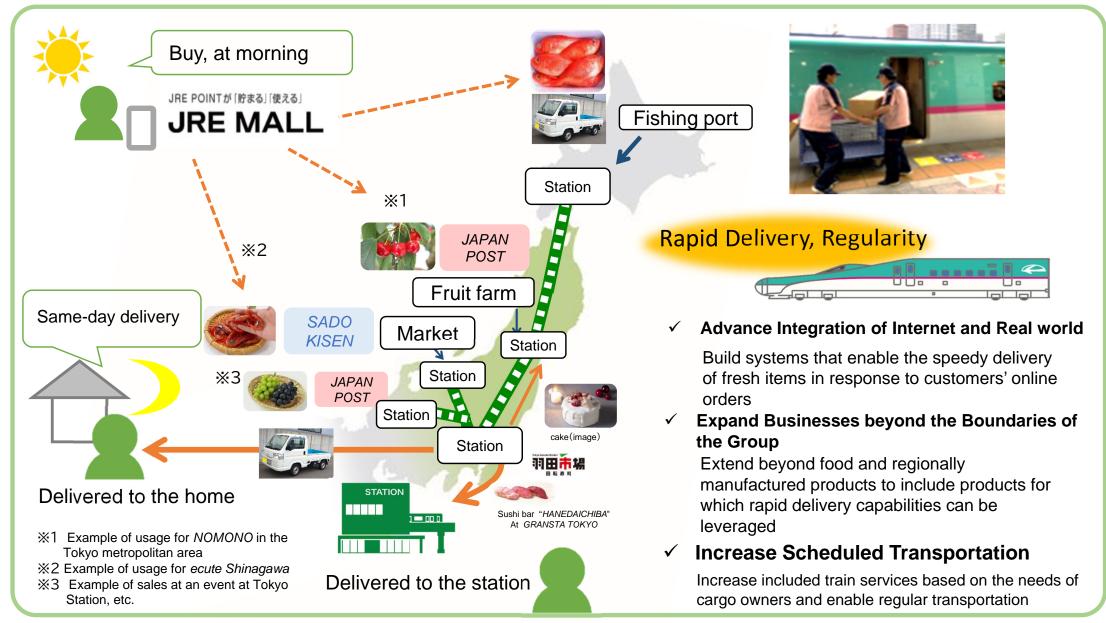

Rebuild Growth and

Innovation Strategies

Take on challenges in new fields [Logistics services that utilize trains]

We will leverage the rapid delivery capabilities and regularity of train services to further expand logistics services that utilize Shinkansen and conventional line limited express services, among others.

Take on challenges in new fields

We will provide new value through business alliances with start-up companies among others and such measures as the sharing of 5G antenna infrastructure.

Business Alliances with Start-Up Companies, etc.

Regional revitalization

Venture companies \times Regions \times JR East

Through JR East Startup Co., Ltd., accelerate business alliances with start-up companies and universities, etc., and aim to introduce new technologies and services

New trips during the COVID-19 pandemic

Improvement in anticipation of the "post-COVID" era

Regional agriculture that paves the way for the future

Hotels in prime lineside-area locations

Smart life

Propose ideas for new work styles

Rebuild Growth and

novation Strategies

Transportation and lifestyle commuter pass Promote new lifestyles

Advancement of SDGs that utilizes railway forests

Develop new businesses that utilize unmanned railway stations

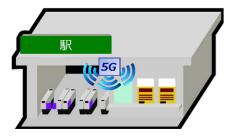

and lifestyles

Utilize technologies from universities in maintenance

Share 5G antenna infrastructure

- Establish 5G communications environment inside railway stations and begin business for renting out to telecommunications carriers
- Develop through maximum utilization of the Group's assets (land, buildings), including railway line-side areas

Take on challenges in new fields

- We will proactively introduce robot technologies and achieve innovation in such areas as the provision of guidance information, cleaning, and security.
- We will continue to take on challenges in global businesses, and mainly in Asia we will offer enriched lifestyles.

Utilize Guidance Information, Cleaning, and Security Robots

[Guide]

Introduce AI-enabled robots to reduce the personnel required for guidance information provision duties in railway stations and over-thecounter duties in station buildings

[Cleaning]

Increase the efficiency of cleaning duties through the use of autonomous mobile robots **(Security)** Reduce the personnel required for security duties through the use of autonomous mobile robots and increase safety and reassurance through the enhancement of detection technologies

Develop maintenance robots

[Railroad] Develop PC tie switching equipment

(Electricity) Develop galvanized steel coating process

Rebuild Growth and

Innovation Strategies

(Others) Develop heavy load conveyor

Develop overseas businesses

- Acquire new projects mainly in Asia
- Increase the development of railcar manufacturing operations in overseas markets
- Provide new value overseas that capitalizes on the Group's know-how (development of spaces inside railway stations in Singapore, Hotel Metropolitan Premier Taipei)
- Pursue business alliances with local venture companies at the One&Co workspace in Singapore
- Realize virtual tours of Japan's tourism areas at JAPAN RAIL CAFÉ

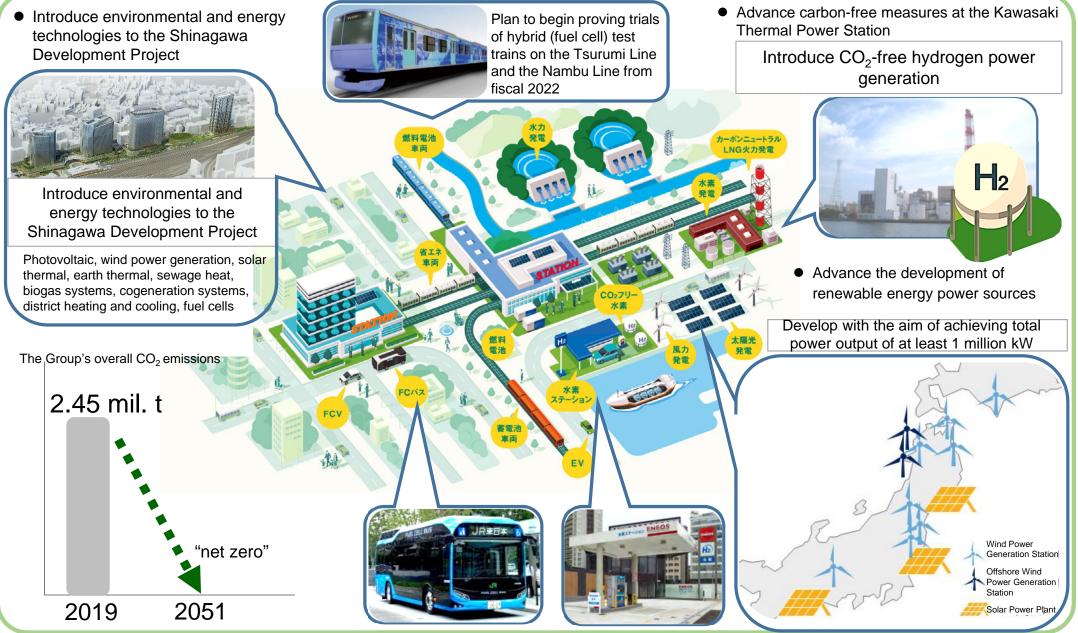

Practice ESG management 【Zero-Carbon Challenge 2050】

The entire JR East Group will take on the challenge of achieving "net zero" CO_2 emissions by fiscal 2051. We aim to contribute to the achievement of a carbon-free society, enhance the environmental superiority of railways even further, and help realize a sustainable society.

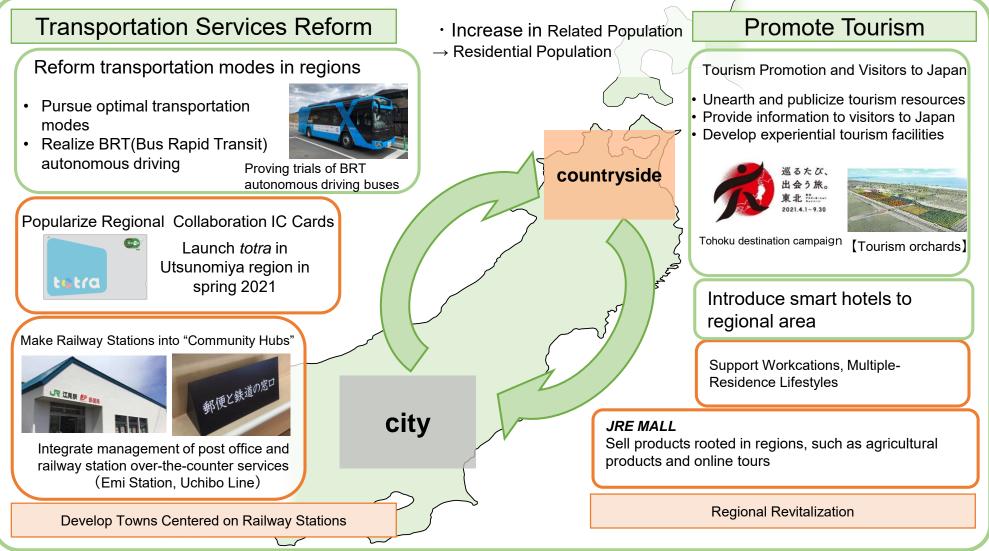

Practice ESG

nanagemen

Practice ESG management [Contribute to regional revitalization]

Anticipating change in society as it moves away from "concentration" and toward "dispersal," we will help enrich lifestyles by accelerating initiatives in such areas as tourism promotion, regional revitalization, transportation services reform, and town development.

Practice ESG

managemer

Strengthen management efficiency fundamentally

	Short term	(2020•2021)	Middle term (2022 \sim 2024)	Long term (2025~)		
Improve Cash Flows	Planning cost reductions of approximately ¥150.0 billion (FY2021)	Reduce fixed costs even further, revise investment needed for the continuous operation of business				
	Establish	efficient sales systems (ticket	tless, cashless)			
Enhance		ng				
productivity	Accelerate smar	construction methods				
		Reform duty execution syste	ems			
Provide Services	ide Services Provide Services Reflecting Changes in Usage					
Reflecting Changes in	Revise fundamental c	components of operations (trar	nsportation timetables, etc.)			
Usage	Seek even greater business profitability in large-scale projects					
Optimize Group management	Reorganize	the Group (efficient operation	nal management)	19		

Strengthen management efficiency fundamentally

With a view to overcoming weak point of the railway business that results from high fixed costs, we will continue reforming cost structures and review investment required for the continuous operation of business. While we will ensure safety and steadily proceed with required replacement of superannuated equipment and facilities as well as maintenance, we will conduct a zero-based review of investment required for the continuous operation of business.

< Improve Cash Flows> **Reduce Fixed Costs** [Others] [Maintenance] [Duty execution systems] Digitize publicity and advertising · Advance efficiency Increase daytime work Reform security systems •Reduce costs in enhancement Conduct modulated R&D

- Revise new-hire numbers
- Streamline organizations
- cooperation with partner
- companies, etc.
- Analyze volume unit prices of contracts

Revise Investment Required for the Continuous Operation of Business

- ·Analyze renewal timing (railcars and other equipment and facilities) (railcars and other equipment and facilities)
- ·Reduce railcar numbers

<Increase Productivity>

Reform Railway Station Duties

 Advance ticketless services Introduce automated reserved-seat ticket vending machines that speak Accelerate shift toward sales system not reliant on Midori no Madoguchi ticket offices

Driver-Only Services

 Accelerate introduction for trains with more than three cars ·Consider autonomous driving

Smart maintenance

Advance ※CBM

•Increase the precision of track displacement prediction, increase automated AI assessment of tracks and overhead contact lines Develop railcar CBM further

CBM: Condition Based Maintenance

< Provide Services Reflecting Changes in Usage> Revise fundamental components of operations (transportation timetables, etc.)

•Revise timetables for last-train services. •Revise timetables for lush hour.

Streamline equipment and facilities

20

Capital expenditures	+711.0 billion
Investment needed for the continuous operation of business (Safety practice and transportation stability)	¥ 363.0 billion
Growth investment	¥ 284.0 billion
Priority budget allocation (Investment in innovation, etc.)	¥ 64.0 billion

Shareholder returns

¥100/ share dividend

Approach to Shareholder Returns: Maintain the Policy of "Move Up" 2027

■ In the medium-to-long term, we are setting our sights on realizing a total return ratio target of 40% and a dividend payout ratio of 30%.

■ We will continue increasing dividends stably while proceeding with the flexible share repurchase in light of performance trends.

Cost Reduction Plan (Capital Expenditures)

Fund-Raising Policy

Policy

- Secure adequate liquidity through "early, abundant, long-term" funding
- Take flexible measures (funding, repayment) while carefully analyzing revenue trends going forward
- Ensure that the utilization of short-term fund-raising does not accumulate excessive interest-bearing debt
- Fund-Raising Situation(Mar.- Aug. 2020)
 - Long-term fund-raising (bonds, borrowing) :Totaled 360 billion yen.
 - Short-term fund-raising (CP, special bank overdraft facilities, commitment lines, general bank overdraft facilities):Balance at the end of August is 680 billion yen.

Forward-Looking Statements

Statements contained in this report with respect to JR East's plans, strategies and beliefs that are not historical facts are forwardlooking statements about the future performance of JR East, which are based on management's assumptions and beliefs in light of the information currently available to it. These forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause JR East's actual results, performance or achievements to differ materially from the expectations expressed herein. These factors include, without limitation, (i) JR East's ability to successfully maintain or increase current passenger levels on railway services, (ii) JR East's ability to improve the profitability of railway and other operations, (iii) JR East's ability to expand non-transportation operations, and (iv) general changes in economic conditions and laws, regulations and government policies in Japan.
