East Japan Railway Company

New Rail Passes for Inbound Visitors

- The East Japan Railway Company (Head office: Shibuya, Tokyo; President & CEO: Yoichi Kise; hereinafter referred to as "JR East") offers a variety of rail passes for inbound visitors (hereinafter referred to as "rail passes") that cover areas around Japan and are tailored to inbound visitor travel needs.
- From Saturday, March 14, 2026, new rail passes will be available and the service areas covered by some passes will be expanded. Prices for rail passes will also be revised.
- From Wednesday, April 1, 2026, a JAPAN RAIL PASS that has been reserved through JAPAN RAIL PASS Reservation can also be picked up/exchanged at some JR East reserved seat ticket vending machines equipped with passport readers.

1. Revision of Rail Passes for Inbound Visitors

As outlined in our Group Management Vision "To the Next Stage" 2034, in order to achieve our goal of expanding regional travel for the growing number of inbound visitors (increasing the share of overnight stays in Tohoku from approx. 1.5% to 5%), we will introduce the new JR EAST PASS, which covers travel on all JR East lines and some lines operated by other companies. For the JR East-South Hokkaido Rail Pass, a pass offered jointly with JR Hokkaido, we will expand the coverage area to include Tohoku and Niigata, aiming to increase travel to Tohoku from Hokkaido, a popular destination among inbound visitors.

Additionally, for the Hokuriku Arch Pass, a pass offered jointly with JR West, we will expand the coverage area to include the Koshin'etsu area, a popular destination for inbound visitors, thereby providing travel that is even more seamless.

Passes without coverage area changes will continue to be sold with revised prices.

*Sales of the "JR EAST PASS (Tohoku area)" and "JR EAST PASS (Nagano, Niigata area)" will end on Friday, March 13, 2026.
